POSTOFFICE COMMON SENSE

The postoffice deficit for the fiscalia var was \$16,910,000. Part of the falling off is due to financial depression, part to the fact that rural free delivter ery does not yet pay.

ILLINOIS POLITICS

From among the reports of the elecion in Illinois has emerged a fact of greater value than the success of this or that party or this or that politician, the fact that the people of the state voted in favor of an issue by the state of \$20,900,909 of bonds to assure the completion by 1915 of a 14-foot waterway between Chicago and the Mississinpl river. It will be recalled that the municipality of Chicago has already spent \$53,000,000 in digging a drainage canal 32 miles long, with a minimum width of 160 feet, connectog the Chicago diver and Desplaines egislation, the water-way will be built from the present terminus of the canal into the Hinois river, thus giving a waterway at least 14 feet deep between Lake Michigan and the Mississsippi. This stretch is one of the most important links in the proposed 1-foot waterway from the Lakes to

Gulf, which will have a most impertunt and far-reaching bearing upon the material development of the whole Mississippi valley and, of Order your Wagon, Carriage, Fenc. course, of the whole country.-Manu-

Ours is a safe store. We don't believe make last year's goods are this year's: or try to hoodwink people in any way. We don't waylay anybody; or ask more than we should for anything-never did. It does'nt pay. Self-interest as well as honesty is at the bottom of it.

We repeat it-Ours is a "safe" store. Perhaps there may be other safe stores in Ocala. Upon reflection we are inclined to think there are; and other honest tradespeople besides ourselves-some, in fact, some up the street, some down the street, and possibly some farther off.

We've a wonderful lot of nice things to sell-we think nicer and cheaper than anybody's; and we are awful honest in telling about them-nearly almost more honest than anybody, though it isn't at all unlikely that in the course of time, by force of our example, somebody may grow to be just as honest as we are. You see, if we had to deceive in order to sell there would be nothing joyful in the jingle of the money. We have done what we could to bring into pleasing conditions the cheery things that come to popular thought with the Autumn.

The basis of this business is the Best Merchandise For Your Money. Gathering the best goods-wherever they are, the e we are. Doing the best that can be done with capital. with special capacity, with restless, constant energy, with trained taste, with merchantile experience to bring the things you need. Selling them at the least. Giving broad, liberal, genial service.

Come, wander about Suprises are lying in wait. If you are not compounded of too particular clay every sense shall be satisfied.
